

Hawaiian Gazette.

VOL. LIII. NO. 70

HONOLULU, HAWAII TERRITORY, TUESDAY, SEPTEMBER 13, 1910.—SEMI-WEEKLY.

WHOLE NO. 3203

KUHIO WILL LEAD PARTY FOR THE FOURTH TIME

Platform Favors More Immigration and More Roads.

Party Takes Firm Stand for Continuance of Prosperity.

For the fourth time in Republican history in the Territory, Prince Jonah Kūhiō Kalanianaʻole will head the party to the direct primary law for date for delegate to congress, his nomination being unanimous in the territorial convention yesterday.

Kūhiō will run upon the most progressive platform yet put forth in the Territory, a platform that pledges the party's territorial ticket as its candidate for the strict enforcement of the present excellent liquor law, for the continuance of assisted immigration, for more liberal allowances for education, for liberal appropriations for roads and for the continuance of the permanent settlement for Queen Liliuokalani.

The platform was almost as unanimous as the vote that declared Kūhiō once again the standard-bearer of the party, only two votes being registered against it and the reason given for these being that the immigrants in clause would not be popular with the Hawaiians and therefore should be left out for policy's sake.

Kūhiō came out strongly in favor of the immigration plank, stating that he had no fear of facing the issue on the stump. He was given an ovation for the firm stand he took and for the fearlessness he displayed.

A. L. C. Atkinson was reelected chairman of the executive committee.

MORNING SESSION.

A. L. C. Atkinson called the Republican territorial convention to order in the Orpheum Theater yesterday morning at half-past ten in his capacity as chairman of the territorial central committee. Following the opening, Clarence Crabbe was named as temporary chairman and A. D. Cooper secretary. The chairman immediately appointed three committees of eleven members each—credentials, rules and platform. The committees followed:

Credentials.—Maui, Edward Hart, William Kahikini; Oahu, fourth district, R. L. Cooper, H. D. Bower; Oahu, fifth district, S. D. Correa, Wm. Kau; Kauai, W. M. Mase, Isaac Iona; Hawaii, C. Green, John Jesus; West Hawaii, Arthur K. Akina.

Rules.—Carl S. Smith, chairman; H. S. Richard, H. Akona, A. P. Tavares, A. B. Carley, W. H. Hoogs, Lima Kahawane, A. S. Mahaulu, H. C. Adams, G. H. Huddy, J. H. K. Kaiwi.

Platform.—C. A. Rice, chairman; Judge Kapahu, Geo. C. Watt, L. S. Conness, S. L. Desha, W. Henney, W. R. Farrington, W. M. Thompson, A. F. Judd, E. N. Seville.

When the credentials committee finally made its report, about an hour after it went into session, the convention learned that George Kinton had been ruled out as a delegate because he had also sat in the county convention.

The chair announced that the districts were entitled to name their choice for members of the central committee, and the fourth district, after caucusing, presented the following list: T. H. Petrie, John C. Lane, W. H. Hoogs, A. L. C. Atkinson, A. D. Cooper and Clarence Crabbe.

The convention adjourned to seven-thirty in the evening.

EVENING SESSION.

Chairman Crabbe called for a report from the rules committee which was read from the stage by Carl Smith of Hilo. The report was adopted, whereupon Mr. Smith moved the temporary chairman and temporary secretary be the permanent officers. Objection was made from the third district until the rules were suspended. This was done and the motion was renewed and carried.

The appointment of territorial members (Continued on page 8.)

JONAH KUHIO KALANIANAʻOLE.

Renominated unanimously for his fourth term as Delegate to Congress.

The Platform as Adopted

I. Fifty-six years ago the Republican party came into existence, dedicated among other purposes to the great task of arresting the extension of human slavery. In 1860 it elected its first president. During thirty of the fifty years which have elapsed since the election of Abraham Lincoln the Republican party has held complete control of the government. For eighteen more of the fifty years it has held partial control, through the possession of one or more branches of the government, while the Democratic party, during the same period, has had complete control for only two years. This long tenure of power by the Republican party has commanded the confidence of the American people for nearly two generations to a degree never equaled in the history of the United States, and it has shown that party's high capacity for rule and government. In convention now assembled, the Republican party of Hawaii hereby reaffirms its allegiance to the principles and traditions of the Republican party of the Nation and to its policies as outlined in the national platform.

THE PRESIDENT.

II. We heartily endorse the administration of President Taft.

THE GOVERNOR.

III. We endorse the vigorous and successful administration of Governor Frear and are proud of the results thereby accomplished for the welfare of the Territory.

THE DELEGATE.

IV. We congratulate the Territory on the continued remarkable success of Delegate Kalanianaʻole in obtaining financial and other legislation by Congress for Hawaii. Such results call for his reelection as a matter of course.

ACHIEVEMENTS THROUGH CONGRESS.

V. The unparalleled results obtained for the Territory through congressional legislation, since united national and territorial action became possible through control by the Republican party, are in marked contrast with the painfully barren results of the preceding years, and form the best arguments for the continuance of such control and the strongest warning against disturbing it.

Appropriations.—These results in-

clude appropriations and authorizations for military and naval defenses aggregating nearly \$10,000,000; for harbors on all the principal islands aggregating over \$3,500,000; for federal buildings for Honolulu and Hilo aggregating \$1,700,000; for lighthouses and light-house tender aggregating over \$500,000; besides the reimbursement of the Territory for maintenance of lighthouses during the earlier years; for legislative expenses \$30,000 each biennial period, and many other appropriations.

Organic Act Amendments.—These include numerous important acts of general legislation, culminating in the recent comprehensive amendments of the Organic Act, which enlarge the powers of the legislature; increase the salaries of legislators as well as of executive and judicial officers; make all general federal appropriations applicable to Hawaii; validate numerous doubtful naturalizations; improve the laws relating to disqualifications of judges; facilitate the sale of public lands at higher prices and lower rates of interest; provide for the acquisition from the Federal government of the title to property used or required by the Territory and the counties.

Homes for Citizens.—Most important of all, these amendments mark the beginning of a new era in homesteading public lands by facilitating such homesteading and, at the same time, preventing homesteaded lands from getting into the control of aliens, corporations and large landholders. They also grant preference rights to certain persons residing on public lands to obtain title to their homes; provide for settling the titles of churches to their lots; and prescribe stricter limitations upon leases, exchanges and sales of public lands for other than homestead purposes.

ACHIEVEMENTS THROUGH THE LEGISLATURE.

VI. The Republican party stands confidently upon its record of constructive and progressive statesmanship and the resulting unprecedented prosperity as conclusive reasons for its continuance in power, this being a sure guarantee that it will continue to make the public welfare its paramount concern.

Surplus Through Economy.—By reorganization, economy and the pursuit of businesslike methods, the Republican administration has placed the Territorial finances upon a sound basis, with the remarkable result that notwithstanding the loss of a million dollars annually in customs receipts and an increase of nearly fifty per cent in transfers of revenues to the counties during the last three years, it has, without adding to the burdens of taxation, expunged a deficit of \$700,000 and accumulated a surplus of equal amount, which is available for public improvements.

Problems Solved.—It has worked out a satisfactory solution of the complicated and difficult public land problem. It has practically solved the leprosy question and inaugurated a campaign against tuberculosis.

It has enacted and faithfully executed the best high license liquor law in this or any other country.

It has evolved advanced policies on the fundamental subjects of conservation and immigration.

It has instituted and developed city and county government.

It has created a college of agriculture and mechanic arts.

It has provided for a public library.

It has honestly and efficiently expended millions of dollars in public improvements.

It has, in pursuance of the same careful and businesslike methods, tending to further constructive and progressive action, provided for investigations by commissions into the subjects of school funds, private wharves and landings.

(Continued on page 8.)

DEPARTMENT HERE BEFORE END OF YEAR

Brigadier-General to Be Sent to Command Island Troops of Uncle Sam.

DUNNING AS CHIEF OF STAFF

Dirt Will Be Flying on Million Dollars' Worth of Contracts Within Short While.

Within sixty days Hawaii may be created into a separate military department with a brigadier-general in command. The separate department has been recommended by General Barry, formerly in command of the department of California, of which Hawaii is now a part.

Speculation so far has not selected the general who will command the new department, but there is a prophecy that Major S. M. Dunning, Twentieth Infantry, commandant of Fort Shafter, and at present officiating at the maneuvers at Atascadero, California, will be the chief of staff here. Major Dunning is nearing the time when he may become a lieutenant-colonel. The selection of Major Dunning for the post of chief of staff would be pleasing news to the circle of friends of Major and Mrs. Dunning.

Before End of Year.

The renewed activity in construction work in army posts in and about Honolulu gives rise to the rumor that the department will be created before December 1, or at least by the first of the year. Next month the second squadron of the Fifth Cavalry will ar-

MAJOR DUNNING, U. S. A.

rive from Yellowstone Park and go into the temporary quarters now being constructed at Schofield Barracks, Lelehu, by Captain Falls, depot quartermaster. The recommendation has been made that Fort Shafter be made a regimental post, also, and this would increase the size of the post about two-thirds, as there is now only one battalion there, out of the three composing the regiment.

No De Russy Barracks.

There is not likely to be any barracks construction at Fort De Russy, Waikiki, it being understood that the engineers have recommended against any building until more of the ponds on the reservation have been filled. This being the case it is likely that the quarter of a million dollars on hand for barracks may be used for building permanent barracks, officers quarters and other post buildings at Fort Ruger.

At present Fort Ruger is the garrison post for Battery Harlow, the mortar battery on the mauka slope of Diamond Head. These eight mortars are the only ones about ready for use, except the big 12-inch coast defense guns at Fort Kamehameha, Pearl Harbor. As a recommendation has been made to the war department that the Pearl Harbor army defenses be made a separate artillery district from Honolulu, permanent quarters at Fort Ruger will suffice, as after the big 14-inch guns are mounted at De Russy, the artillerymen can live in tents as the engineers do now.

Building Contracts.

Local contractors have expected the navy department to advertise for bids for various work at the Pearl Harbor naval station, and really thought bids (Continued on page 8.)

COUNTY TICKET COMPLETE TODAY

Representatives and Senators to Be Chosen—Good Men Are Available.

The Republican county convention will choose candidates tonight to go upon the ticket for the senate and house of representatives. The convention, which adjourned about four o'clock Sunday morning, will reconvene to-night, with Chairman R. W. Breckons presiding, and the nominees for selection listed Saturday night will be balloted upon. The list comprises the following:

Senate.—A. F. Judd, Clarence Crabbe, J. C. Cohen, Cecil Brown, Charles Chillingworth, John Hughes and Charles Aehl.

House.—John K. Kamanoulu, Robert H. Baker, Marcellino, William Williams, George Makalena, Norman Watkins, Lilikalani, A. St. C. Pinaua, Hiram Kolomoku, C. H. Brown, M. S. Deponte, E. A. C. Long, Ed. Towse, J. H. S. Kalea. Fifth district—A. L. Castle, Edward Fernandez, Charles Kanekoa, S. P. Correa, William Isaac, William Kane, A. S. Kaleiopi, B. J. Kane, Eli Crawford, Ruel Kinney, S. K. Mahoe, Frank Areher, S. K. Kamakahi, David Kama and John Kalana.

It is probable that J. C. Cohen will withdraw from the contest. An effort will be made to defeat Aehl, and there are forces enough, it is said, to put him out of the running.

Probably the only blot on the ticket will be Kama, the gambler of the fifth district, the close friend of George Kane, the notorious gambler, now sitting in the convention, who has been convicted in the police court for gambling. Some of the delegates have decided that Kama must go on the ticket because of the impression that he has some voting strength.

The effort to get A. D. Castro on the ticket is being blocked by those who read the rules literally. Mr. Castro is on the way home from San Francisco on the Sierra, and will be here Friday morning. The wireless is in touch with the Sierra today, and the convention might hear from him.

ARMED OFFICERS PROTECTING SHIP

Quarantine Outlaws Attempt to Board Wilhelmina—Health Problem.

Shortly before midnight a gang of the runaways from the Matson steamship Wilhelmina, twenty-eight of whose crew broke quarantine earlier in the evening, attempted to make a rush aboard the vessel and the police, who had been summoned by the ship's officers, quietly informed them that they could not go aboard; that any further attempt on their part to get back to the ship would be frustrated by force.

As told elsewhere, a large number of the crew, against strict orders, left the ship, which is in quarantine for smallpox and the police were summoned several times in fact, horse and foot and on bicycles, and specials in civilian clothes.

But the police were at a loss why they were wanted when the men had already broken quarantine and were scattered about town, among the saloons in most cases. It seemed a health proposition and not a matter for the police.

However, towards midnight the police side of the situation became clearer, for the chief officer of the Wilhelmina had told the crew that they would not be permitted to return to the ship if they went ashore, and the police were again called on to protect the vessel from a rush threatened by the outlaws, several of whom were wickedly drunk.

A representative of the steamship company called on Sheriff Jarratt, and in addition to four regulars special police were sworn in to guard the wharf, the orders being not to allow (Continued on page five.)

HOLDUPS HELD UP BY A PLUCKY WOMAN

The tables were completely turned on two Korean would-be burglars last night at Kalihi when they entered the home of Mrs. Rawlins and attempted to burglarize it. The noise of their intrusion awakened the plucky mistress of the house and the two holdups found themselves suddenly looking into the muzzle of a revolver, very neatly held up in their turn.

The police were sent for at once, and during the long interval which it took for the patrol to reach the scene, Mrs. Rawlins held the two cowering desperadoes up to the mark.

Just as the police officers entered the room one of the men turned to his companion and whispered a few words in Korean. The other made a quick motion and before either his captor or the police could stop him, he had dived head first through the window and got away.

The first man was arrested and booked at the police station where an attempt will be made to elicit the name of his companion.

THREE STATES DEMOCRATIC PRIZE

Maine Elects Its First Governor From Party in Thirty Years.

ARKANSAS NOW CONCEDED

Arizona's First State Elections Place It in the Ranks of the Unterrified.

PORTLAND, Maine, September 13.—For the first time in thirty years the State of Maine has elected a Democratic governor, Frederick Plaisted, the Democratic candidate for the chief executiveship of the Granite State, was elected by a plurality of 9000.

The indications are that Maine will send a solid Democratic delegation to the national house. The count at present indicates that Congressman F. E. Guernsey of the fourth district, and Congressman E. C. Burleigh of the third, have been defeated and it is probable that Congressmen Allen and Swasey will also be defeated for reelection by the Democratic candidates. The Maine legislature is now Democratic also.

New State Democratic.

PHOENIX, September 13.—The first elections held in Arizona since it attained statehood resulted in a decisive victory for the Democrats. Arizona, as a Territory, was staunchly Democratic, but the Republican leaders were trying to swing the State into the other column, without success.

It is probable that the Democrats have fifty-two delegates to the constitutional convention, against thirty-six Republicans.

The Democratic platform contains planks calling for the initiative and referendum, the recall and the direct primary in elections for senators. It is probable that all these will be incorporated in the constitution when drafted.

Arkansas Unterrified.

WASHINGTON, September 12.—The Democrats are conceded to have a majority in the Arkansas elections.

BEEF TRUST KINGS ARE ALL INDICTED

Nine Men Accused of Conspiring to Restrain Trade and Raise Prices.

CHICAGO, September 13.—The investigation of the beef and refrigerator trusts, which has been proceeding steadily here under the direction of the government, resulted yesterday in three indictments being returned against the men prominent in the packing business in Chicago.

The men are charged with conspiracy in restraint of trade and for the consequent creation of a monopoly. L. E. Edwards, Charles Swift, Francis Fowler, director of the Swift company; Edward Tilden, president of the National Packing Company; J. Ogden Armour, Arthur Meeker, general manager, and Thomas Connors, superintendent of the Armour company, and Edward Morris and L. O. Heyman, manager of the Morris Packing Company, are those who are named in the indictments.

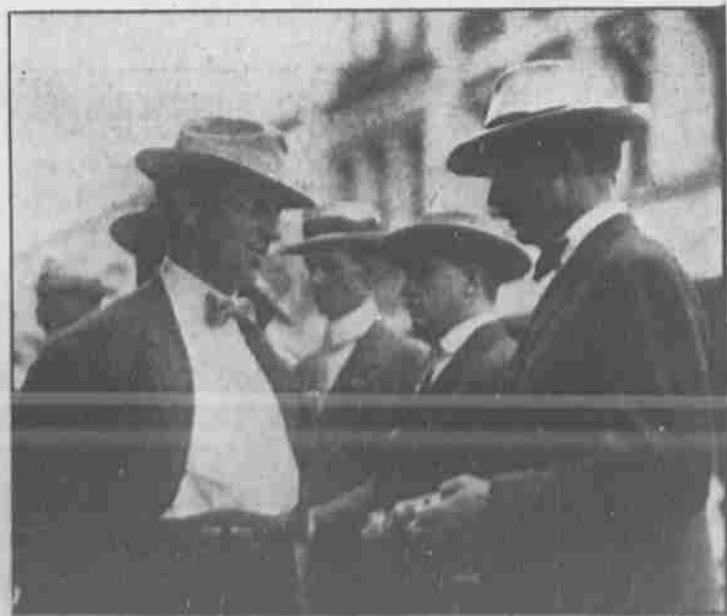

This is the second attempt of the government to break up the alleged beef trust which has once escaped on technicalities. Attorney-General Wickensham has directed the present attack.

BREAK TWO AVIATION RECORDS AT BOSTON

BOSTON, September 13.—More records were broken here at the commencement of the aviation meet yesterday. Ralph Johnson, in a Wright biplane, smashing both the American endurance and distance records in one flight. He covered seventy-five miles in his machine, remaining in the air for three hours, four minutes and forty-four seconds. Graham White in a monoplane made thirty-four miles in thirty-three minutes.

GRAND VILLIERS, France, September 12.—Sixty thousand troops of the French army have assembled for annual maneuvers. One of the interesting features of the event will be the work of the aviation auxiliary that will test the usefulness of the latest air machine in the art of war.

Kwong was yesterday granted a divorce from his husband, Song Poon Hong, by Judge Robinson.

A. F. JUDD, POTTIN' CARL SMITH NEXT.
